

To the FCC:

It is my opinion that too many news outlets using public airways amount to Partisan Cheerleading squads. Radio as well as television has too many programs masquerading as "news" which fit into this bald faced partisan category..in addition to that we have so-called ministers of the Christian Faith who display partisan political views in the name of Christianity. Hypocrisy's ultimate display is to protest Muslim conviction about Religion and government while advocating the same thing in the US about Religion or religious guidelines guiding the USgovernment.

An informed public is supposed to be the bedrock of Democratic and Free Society..Selling out to the big money intrests is anathema to real Democracy.
